## The European War

is playing havoc with prices of all kinds of Imported Goods. To buy safely and not to speculate requires lots of solid judgment. Lots of kinds will be more in price without any just cause. Other kinds will remain at old prices for some days, with fair prospects of prices on kinds that move up last raising the fastest. We are going to help our business by trying to help our trade that has been with us all these years. We were early in the market, before prices advanced. Yes, one week on Linens before large Boston retailers made their purchases. They all had to pay more. Dress Goods the same way. The following are better goods than you have had from us in past seasons:

### Wool Dress Goods

Foreign Dress Goods, those made in France and Germany, at present are not being shipped at all. Foreign Dress Goods held in this country are all that there will be for some months to come. Those that are anxious for a larger profit are taking advantage of existing conditions.
